

# Minimum System Requirements for MarketTime - MarketTime Pro for iPads

## MarketTime Pro for iPads

The MarketTime Pro app is our modern, robust mobile order-writing app, available only for iPads, and can be used online or offline.

This app must be downloaded from the App Store and installed on an iPad, and data must be synced to it for it to function.

We recommend using the MarketTime Pro app on a device that has at least 64GB of storage capacity. The size requirements will vary based on the company using the application. The biggest determinant of the capacity size required is the volume of catalogs that your company utilizes. For a user connected to a large agency with numerous brands, each of which have numerous catalogs, we recommend using a device with 128GB or more of storage capacity.

## Fully Supported

The latest model of iPad and version of iPadOS are fully supported by the MarketTime Pro app:

iPad

- 9th - 11th Generation iPad
- iPad Pro (2020 - Present)
- iPad Air (2021 - Present)
- 6th Generation iPad Mini

iPadOS

- iPadOS 18

What does "Fully Supported" mean?

This means that all MarketTime Pro features should function fully and correctly.

## Partially Supported

The following models of iPads and versions of iPadOS are partially supported by the MarketTime Pro app:

iPad

- 6th - 8th Generation iPad
- iPad Pro (2018 - 2020)
- iPad Air (2018 - 2021)
- 5th Generation iPad Mini

iPadOS

- iPadOS 16

What does "Partially Supported" mean?

While most MarketTime Pro features should function correctly, you may notice a lack of functionality that can't be corrected due to software limitations or compatibility issues. On the other hand, you may not see anything that doesn't act the way you expect. If the problems with one of these devices or software options are too annoying, we encourage you to try one of the fully supported devices or software versions above.

## Unsupported

The following models of iPads and versions of iPadOS are unsupported by the MarketTime Pro app:

iPad

- 5th Generation iPad or earlier
- iPad Pro (2017 or earlier)
- iPad Air (2017 or earlier)
- 4th Generation or earlier iPad Mini

iPadOS

- iPadOS 15 or earlier

What does "Unsupported" mean?

You should use these devices and software versions at your discretion. We can't guarantee that all features will function fully and/or correctly, and support is not offered for those utilizing these devices or software versions to utilize MarketTime Pro.
